

GEDLux

ELECTRICAL SYSTEMS AUTOMATION
SINCE 2008

International
Projects

www.gedlux.com

*Some of the projects mentioned above are not included in the following breakdown

2025

Client: Elecnor,
Project: Chimuara, Red de Transmisión, Mozambique (2025)
Solution: Expansion of SAS Line with the 400/220 kV Chimuara Substation of the Nicoadala Reactor.

Client: EDP Renewables,
Project: ST Pierre des Jonquières, Wind Farm, France (2025)
Solution: Supply of a substation automation system for the ST Pierre des Jonquières 90/33kV substation

Client: EDP Renewables,
Project: Erimia, Photovoltaic Solar Plant, Greece (2025)
Solution: Expansion of Substation Automation System for Martino Substation by extension of 2x MV and 1x HV positions (35 MW, expected to generate about 71 GWh)

Client: EDP Renewables,
Project: Monte di Eboli, Photovoltaic Solar Plant, Italy (2025)
Solution: Supply of a substation automation system for the Monte di Eboli sectioning centre. Integration of UCPS in ModBUS

2024

Client: CJR Renewables,
Project: Foral, Photovoltaic Solar Plant, Poland (2024)
Solution: Digital Supply Substation Automation System with centralised solution.

Client: EDP Renewables,
Project: Recz-1, Photovoltaic Solar Plant, Poland (2024)
Solution: MicroSCADA X version IO, REF620, RIO600, RTU540

Client: EDP Renewables,
Project: Recz-2, Photovoltaic Solar Plant, Poland (2024)
Solution: MicroSCADA X version IO, REF620, RIO600, RTU540

Client: EDP Renewables
Project: Audit, Poland (2024)
Solution: Framework Contract for Audits and Integration in Dispatch Control systems

Client: EDP Renewables,
Project: Fehergyarmat, 50MW Photovoltaic Solar Plant, I, Hungary (2024)
Solution: MicroSCADA X hot standby version IO, REF630, REX640, RTU540, REF615, RIO600

Client: EDP Renewables,
Project: Timisoara, Photovoltaic Solar Plant, Rumania (2024)
Solution: MicroSCADA X hot standby version IO, REF630, REX640, RTU540, REF615, RIO600

2023

Client: EDP Renewables
Project: *Audit*, Poland (2023)
Solution: Framework Contract for Audits and Integration in Dispatch Control systems

Client: EDP Renewables,
Project: *Bobowo*, Wind Farm. Poland (2023)
Solution: MicroSCADA X version IO, REF620, RIO600, RTU540

2022

Client: EDP Renewables, .
Project: *Klincz*, Wind Farm. Poland (2023)
Solution: MicroSCADA X version IO, REF620, RIO600, RTU540

Client: Celeo Redes
Project: *Apoquindo Control Centre*, Chile (2022)
Solution: Integration MicroSCADA MSX in bays at Charrua.

Client: Celeo Redes
Project: *Rucúe y Quilleco*, Chile (2022)
Solution: Separation and Integration of Rucúe and Quilleco installations in the MicroSCADA MSX.

Client: EDP Renewables
Project: *Chotków*, Wind Farm. Poland (2022)
Solution: MicroSCADA X hot standby version IO, REF630, REX640, RTU540, REF615, RIO600

Client: EDP Renewables
Project: *DSO Rampton*, Poland (2022)
Solution: Connection of Budzyn and Pawlowo systems to the EDPR DSO known as Rampton

Client: EDP Renewables
Project: *Audit*, Poland (2022)
Solution: Framework Contract for Audits and Integration in Dispatch Control systems

Client: EDP Renewables
Project: *Przykona*, Photovoltaic Solar Plant, Poland (2022)
Solution: MicroSCADA X hot standby version IO, REF630, REX640, RTU540, REF615, RIO600

Client:
Project:
Solution:

EDP Renewables
Konary, Photovoltaic Solar Plant, Poland (2022)
Update of Pawlowo Control System

Client:
Project:
Solution:

Celeo Redes
Colbún Complex, Chile (2022)
Separation work and integration of the facilities of the Colbún Complex: San Clemente, Chiburgo and Charrúa in the Celeo Redes Control System (Chile).

2021

Client:
Project:
Solution:

EDP Renewables
Wojcice, Wind Farm, Poland (2021)
MicroSCADA X hot standby version IO, REF630, REC670, RTU540, REF615, RIO600

Client:
Project:
Solution:

EDP Renewables
Ujazd, Wind Farm, Poland (2021)
MicroSCADA X hot standby version IO, REF630, REC670, RTU540, REF615, RIO600

Client:
Project:
Solution:

EDP Renewables
Budzyn, 70 MW Wind Farm, Poland (2021)
MicroSCADA X hot standby version IO, REF630, REC670, RTU540, REF615, RIO600

Client:
Project:
Solution:

EDP Renewables
Wielkopolskie, Wind Farm, Poland (2021)
MicroSCADA X hot standby version IO REF630, REC670, RTU540, REF615, RIO600

2019

Client:
Project:
Solution:

Grupo TSK
Penonomé, 150 MW Photovoltaic Solar Plant, Panama (2019)
MicroSCADA SYS600, REx670, REx650, REx620

Client:
Project:
Solution:

EDP Renewables
Lichnowy, Wind Farm, Poland (2019)
MicroSCADA hot standby version 9.4, REF630, REC670, RTU540, REF615, RIO600

Client:
Project:
Solution:

EDP Renewables
Korsze III, 42 MW Wind Farm, Poland (2019)
MicroSCADA hot standby version 9.4, REF630, REC670, RTU540, REF615, RIO600

Client: Elecnor
Project: - *Don Hector*, 100 MW Back-up Power Plant. Chile (2018-19)
 - *Los Vilos*, 150 MW Back-up Power Plant. Chile (2018-19)
 - *Tap Off*, Back-up Power Plant. Chile (2018-19)
Solution: MicroSCADA SYS600, REx670, REx650, REF620, RTU560

Client: Ende Andina
Project: *Entre Ríos*, 230 kV Combined Cycle Power Plant.
Solution: Integration of the Entre Ríos I substation in the EntreRíos MicroSCADA.

Client: Navigator
Project: *Figueira da Foz*, Navigator Paper Mill. Portugal (2019)
Solution: Integration of Schneider relays in ABB MicroSCADA.

Client: Grupo TSK
Project: *Otzalan-Capella*, 150 MW Photovoltaic Solar Plant. Panama (2019)
Solution: MicroSCADA SYS600, REx670, REx650, REx620

2018

Client: Prime Energía
Project: - *Llanos Blancos*, Back-up Power Plant, Chile. (2018)
 - *Combarbala*, 75 MW Back-up Power Plant, Chile. (2018)
 - *San Javier*, 50 MW Back-up Power Plant, Chile. (2018)
 - *Los Pajonales*, 100 MW Back-up Power Plant, Chile. (2018)
 - *Los Cóndores*, 150 MW Run-of-river Hydroelectric Power Plant, Chile (2018)
Solution: MicroSCADA Pro SYS600, REx670, REx650, REF620, RTU560

Client: Grupo TSK
Project: *Oruro*, 50 MW Photovoltaic Solar Plant, Bolivia (2018)
Solution: MicroSCADA Pro SYS600

Client: Grupo TSK
Project: *Dhopar 50*, MW Wind Farm. Dhopar, Oman (2018)
Solution: MicroSCADA Pro SYS600, audit & consultancy of substation communication equipment. Supply of line differential protections (RED670, & ETL 600)

- | | | |
|--|---|--|
|  | Client:
Project:
Solution: | Mexican National Grid
<i>San Luis de Potosí</i> , Wind Farms & Photovoltaic Solar Plants. Mexico (2018)
Audit & consultancy of substation communication equipment (FOX 615, NSD 670, ETL 600) |
|  | Client:
Project:
Solution: | Parques Eólicos del Caribe SA
<i>Guanillo</i> , Wind Farm. Dominican Republic (2018)
Supply of Line Differential Protections, RED670 |
|  | Client:
Project:
Solution: | Grupo TSK
<i>Agua Clara</i> , 50 MW Wind Farm. Dominican Republic (2018)
RED670 relays and FOX communication devices. |
|  | Client:
Project:
Solution: | Grupo TSK
<i>Al-Safawi</i> , 51 MW Photovoltaic Solar Plant, Jordan (2018)
MicroSCADA SYS600C, Rex670, Rex615, Rex620, IEC 61850 |

2017

- | | | |
|--|---|---|
|  | Client:
Project:
Solution: | EDP Renewables
<i>Aventura</i> , 230 kV Wind Farm. Brazil (2017)
Upgrade of the REx630 and MicroSCADA SYS600C control and protection system using IEC 61850 protocol. |
|  | Client:
Project:
Solution: | Celeo Redes
<i>Santiago de Chile</i> , Centro de Control. Chile (2017)
Supply, engineering and commissioning of an automatic hierarchical system based on ABB MicroSCADA and Historian technology for the centralized fault management of the Celeo Redes transport network. |
|  | Client:
Project:
Solution: | Grupo TSK
<i>Baixa de Feijao and Joao Cámara</i> , 150 MW Wind Farms, Brazil (2017)
Engineering of the algorithm for the regulation of active and reactive power in the automation system of substations sharing the same outgoing line.
MicroSCADA SYS600, REX 630, REX615, REX 670, RTU 540, IEC 61850. |
|  | Client:
Project:
Solution: | EDP Renewables
<i>Baixa do Feijao</i> , 30 MW Wind Farm. Brazil (2017)
Expansion of control and protection systems and MicroSCADA SYS600, REX630, REX615, Rex670. |

Client: Ende Andina

Project: *Entre Ríos*, 230 kV Combined Cycle Power Plant. Bolivia (2017)

Warnes, 230 kV Combined Cycle Power Plant. Bolivia (2017)

Termosur, 230 kV Combined Cycle Power Plant. Bolivia (2017)

Solution: PRP 6I850, comprising of 34 ABB RET670 and 34 ABB RET650 devices, the ABB Historian system, and ABB Combiflex maintenance devices as well as redundant MicroSCADA SYS600C systems.

2016

Client: EDP Renewables

Project: *Pawlowo*, 110/33 kV Wind Farm. Poland (2016)

Solution: Ampliación de tres baterías de condensadores del Sistema de control y protecciones MicroSCADA SYS600, Rex630

Client: EDP Renewables

Project: *Tomaszów*, 110/33 kV Wind Farm. Poland (2016)

Solution: MicroSCADA SYS600, IEC 6I850, Rex670, Rex6I5, Rex630

Client: EDP Renewables

Project: *Tyszowce*, 110/33 kV Wind Farm. Poland (2016)

Solution: MicroSCADA SYS600, IEC 6I850, Rex6I5, Rex670, Rex630

Client: Cemento Andino

Project: *Carpapata*, 72 kV Industrial Plant. Peru (2016)

Solución: MicroSCADA SYS600, REX6I5, REX650, IEC 6I850

Client: Access

Project: *Soroti*, 10 MW Photovoltaic Solar Plant, Uganda (2016)

Solution: Expansion of REX6I5 relays using IEC 6I850 communication protocol with RTU560.

Client: Senelec

Project: *Hann*, 90/30kV Distribution Substation, Senegal (2016)

Solution: Expansion of the control and protection system REX630, and MicroSCADA SYS600C using the IEC 6I850 protocol.

Client: NEOEN

Project: *Spica*, 25MW Photovoltaic Solar Plant, El Salvador (2016)

Antares, Photovoltaic Solar Plant, El Salvador (2016)

Solution: MicroSCADA SYS600, Rex670, Rex650, Rex6I5, Rex620, IEC 6I850

Client:
Project:
Solution:

NEOEN
Spica, 25MW Photovoltaic Solar Plant, El Salvador (2016)
Antares: Photovoltaic Solar Plant, El Salvador (2016)
MicroSCADA SYS600, Rex670, Rex650, Rex615,
Rex620, IEC 61850

2015

Client:
Project:
Solution:

ENEL Green Power
Talinay Poniente, 220/33kV Wind Farm, Chile (2015)
IEC 61850, REx670, REx630

Client:
Project:
Solution:

EDP Renewables
Radziejow, 110/33 kV Wind Farm. Poland (2015)
MicroSCADA SYS600, IEC 61850, Rex670, Rex615,
MICOM

2014

Client:
Project:
Solution:

Cemento Andina
Condorcocha, 138 kV Industrial Plant. Peru (2014)
MicroSCADA SYS600, IEC 61850, REx670, REx650

Client:
Project:
Solution:

Ende Andina
- *Warnes*, 230 kV Power Generation Plant. Bolivia (2014)
- *Termosur*, 230 kV Power Generation Plant. Bolivia (2013)
MicroSCADA SYS600, IEC 61850, REx670, REx650,
Historian, Combiflex.

2013 - 2011

Client:
Project:
Solution:

EDP Renewables
Pawlowo, 110/33 kV Wind Farm. Poland (2013)
MicroSCADA SYS600, IEC 61850, Rex670, Rex615,
Rex630, RTU520.

Client:
Project:
Solution:

EDP Renewables
Margonin, 110/33 kV Wind Farm. Poland (2012)
Extension of the IEC 61850, Rex670, LON REF54x
and MicroSCADA SYS600 control and protection system.

Client:
Project:
Solution:

EDP Renewables
Cernavoda, 110/33 kV Wind Farm. Romania (2011)
Expansion of the control and protection system LON
Rex670, REF54x and MicroSCADA SYS600.
